

APPENDIX E3a: Production Division - Boundaries of Tape on Grips

The maximum external surface area to which tape can be applied in a single layer (unavoidable minor overlapping up to 2 cm permitted), is illustrated in the diagrams below:

Tape can only be applied within areas indicated by the dotted lines, which includes the front and rear sections of the grip. However, tape cannot be used to disable a grip safety, nor can tape be applied to any part of the slide, trigger, trigger guard, or on any lever or button.
