Hi there,
Thanks for purchasing from Unio Creative Solutions.

About The File:

Introducing “Smartphone Mockups” - A minimalist and fully customizable layered mockup kit, ideal to use for any web graphics design presentation.

Easily showcase your apps with elegance and clarity using this generic smartphone clay mockup kit. Three beautiful sceneries offer a sophisticated demonstration of your designs in different angles. The phone clay color, including side buttons, is customizable as well as the scenery background. Furthermore, we've also included three basic UI templates, in each of them every detail is highly customizable to meet your visual preferences.

Specifications:

- Format: .psd
- Software Requirement: Photoshop CC or higher
- Additional Infos: layered document, editable content via smart layers
- Included: 3 sceneries with 3 bonus UI kits
- Dimensions: 5000x3300px, 72dpi
- Toggle Effects: shadows, screen fx, background fx

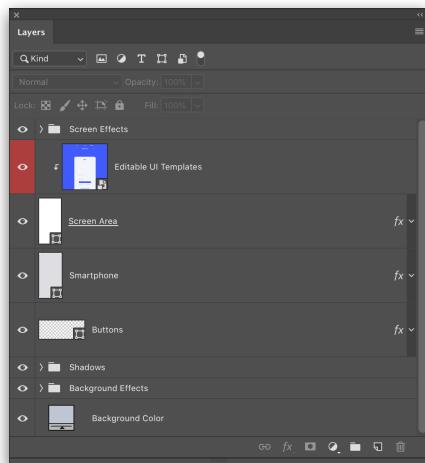

How-to edit Files:

This product requires Adobe® Photoshop® CC or higher for any editing purpose.

Sceneries included:

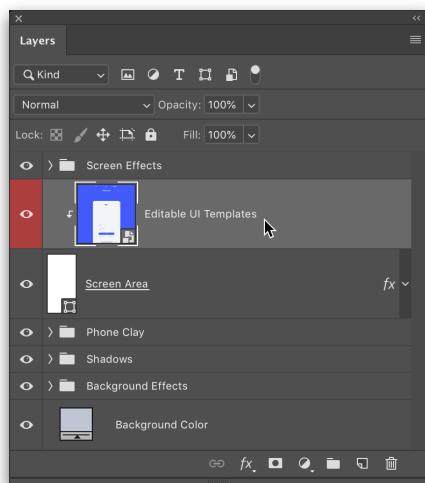

Layers main view:

How to place your design via smart-layer:

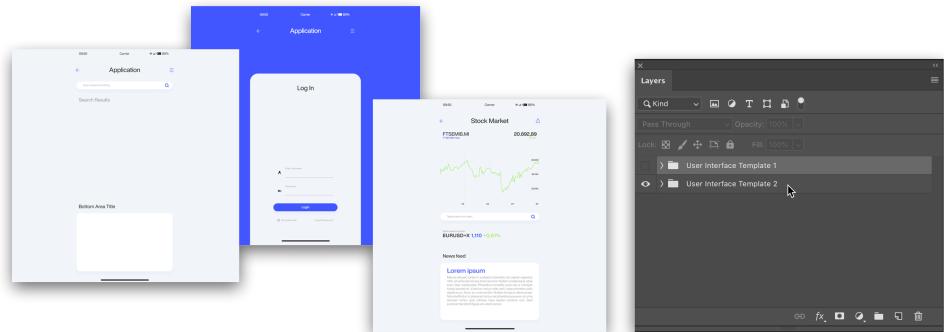

Double-click on the layer named "Editable UI Templates".

How-to edit UI templates:

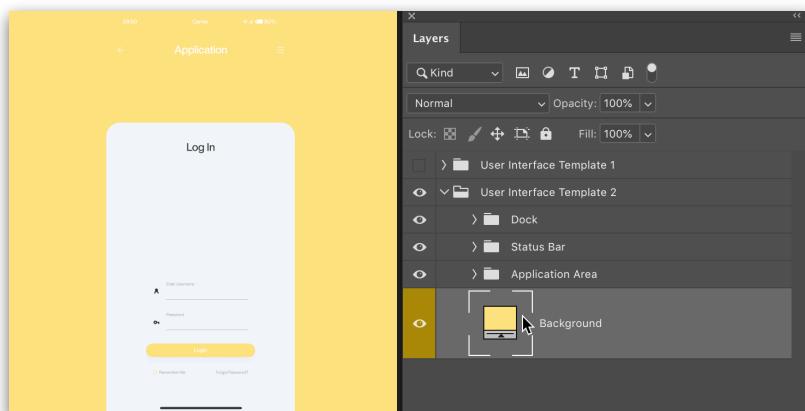

Once opened the “Editable UI Templates” smart layer, you’ll notice two pre-loaded templates. Use our UI kits or

replace with your design.

How-to edit pre-loaded user interfaces :

Each UI kit features an editable background color plus customizable vector elements.

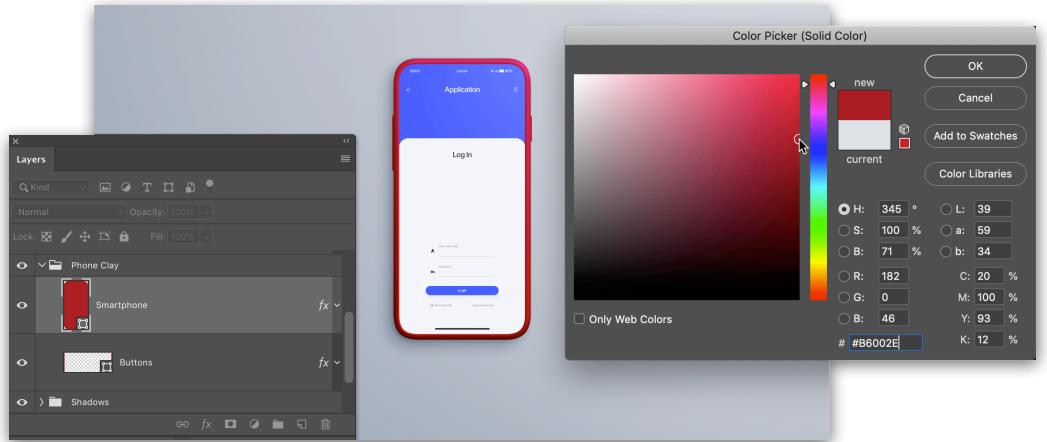

Double-click to start the color picker, then choose your preferred color.

Each vector element is customizable.

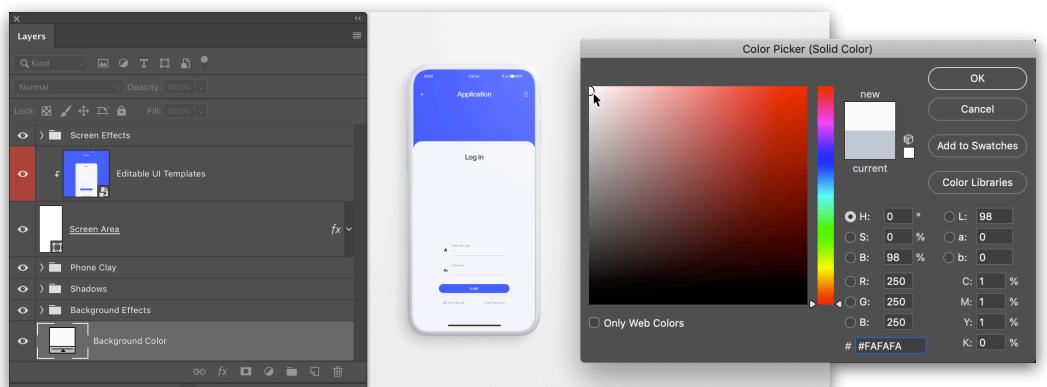

How-to edit phone clay color:

Double-click the “Smartphone” or “Buttons” layer to start the color picker, then choose your preferred color.

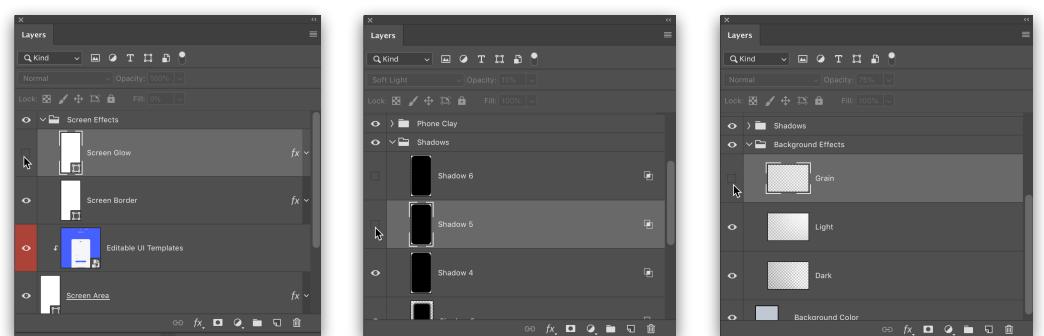

How-to edit scenery background color:

Double-click “Background Color” layer to start the color picker, then choose your preferred color.

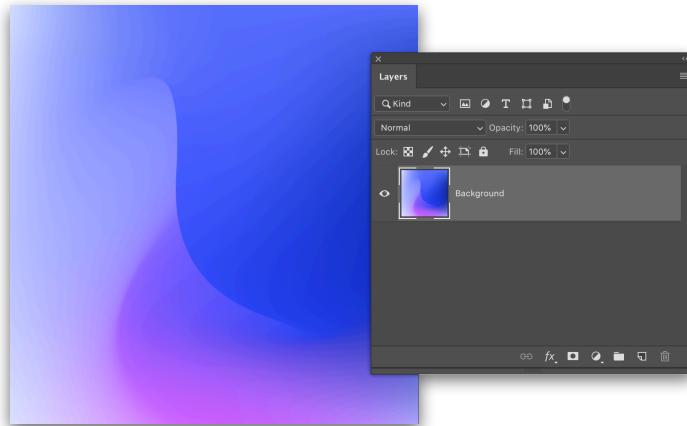

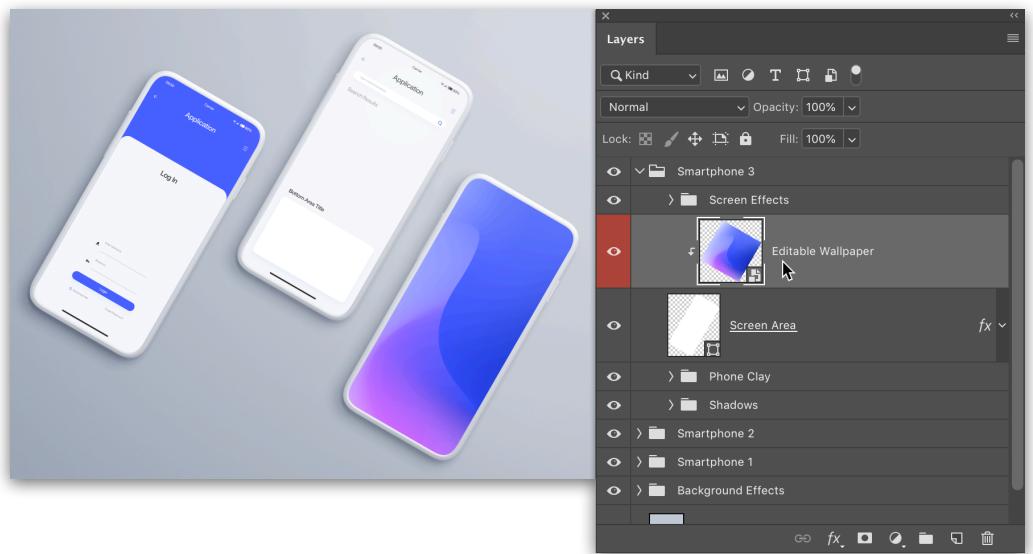

Every scenery has toggle effects:

Deselect unwanted effects by ticking the required layer.

How-to edit the preloaded wallpaper:

Some sceneries include a smartphone clay with a pre-loaded wallpaper, in order to modify or replace that, simply double-click on “Editable Wallpaper” smart layer.

Proceed to modify the “Background” layer or replace with yours.
